

Voyages of the S.Y. Fryderyk Chopin and the S.V. Concordia 2008 – 2009

Forward: Please note that the following schedules are subject to change and are established, at the time of their release, as the most favourable combination of safe sailing passages, safe harbours, suitable service centers and as destinations offering the best opportunities for supporting the learning objectives of our programmes. The vagaries of wind, current, weather and politically stable countries may contribute to changes that are beyond our control. The itineraries capture full ten month voyages for both our 11th and 12th grade students as well as our university students. High School students may elect a partial programme covering 5 months at sea and 5 months in residence while university and GAP year students may elect a partial programme involving only 5 months at sea.

Arrival & Departure Dates	University Campus, S.Y. Chopin Ports of Call	High School Campus, S.V. Concordia Ports of Call	Important Notes
